# TDD com Ruby on Rails, RSpec e Capybara

Jackson Pires

Customizando Matchers

# Customizando Matchers

```ruby
RSpec::Matchers.define :be_a_multiple_of do |expected|
  match do |actual|
    actual % expected == 0
  end
end
```

# Customizando Matchers

```
failure_message do |actual|
    "expected that #{actual} would be a multiple of
#{expected}"
end
```

# Customizando Matchers

```
description do
  "be multiple of #{expected}"
end
```
